15 December 2021

The President, CEO, Proprietors, Heads of Office

Concerned Establishments, LGUs, and other Government Agencies in Region 3

Attention : Designated Pollution Control Officers
Re : 5 Day Online Training Course for Pollution Control Officers (PCOs)

Sir / Madam:

Environmental greetings!

Through the Department of Environment and Natural Resources - Environmental Management Bureau, the government still ensures that private and public establishments strictly comply with environmental laws during the onslaught of COVID-19 deadly disease.

That is why the DENR Administrative Order (DAO) 2014-02 or the Revised Guidelines for the Accreditation of Pollution Control Officers remains active and enforced by the office of EMB to secure environmental protection and sustainability. Furthermore, to address the pandemic situation in the country, the Memorandum Circular 2020-19 or the Guidelines on the Conduct of Online Training of Pollution Control Officers and Managing Heads was released as a guide to safeguard PCO training' quality through web-based or virtual platforms.

With this, the SVM Research Consultancy Services, an accredited training provider of DENR-EMB with COR No. 2021-17-N, will conduct a 5-day online basic training course for PCOs on **February 14-18, 2022** with an equivalent of 40 accredited training hours. This training course can be utilized to apply PCO accreditation and re-accreditation to EMB Office. The training course includes the following modules:

- Framework of Environmental Regulations and EMB Mandates, Plans and Programs
- Philippine Environmental Impact Statement System (PD 1586)

- RA 8749: The Clean Air Act and its IRR
- RA 6969: Toxic Substances and Hazardous Wastes Act and its IRR, Title I: Chemical Management CCO-PCB Online Application, OPMS for Chemicals
- RA 9275: The Clean Water Act and its IRR
- RA 9003: The Ecological Solid Waste Management Act
- DAO 2014-02: Revised Guidelines on the Accreditation of Pollution Control Officers
- Climate Change and Ozone Depleting Substances
- Water and Waste Sampling and Laboratory Analysis
- Incident Investigation and Incident Reporting
- Legal Procedures on Environmental Cases
- Online Self-Monitoring Report (SMR) Submission (new version)
- Online Compliance Monitoring Report (CMR) Submission
- Online Applications for WP, POA, and Hazardous Waste Generator's ID

The Participants

The participants must be Filipino with good moral character, legal age, and mentally and physically healthy. Also, they must be a full-time employee of the appointing establishment, a graduate of any related science or technical course or at least had reached third-year college, or at least had been in the establishment for 3 years in a supervisory position. In addition, for category B establishments, licensed engineers or chemists may be required.

Training Fee

The participant has to pay the registration fee of P6,000.00, including online training materials, a soft copy of the presentation, and a training certificate to be sent via courier. In addition, a soft copy of the training certificate will be sent in advance via e-mail.

Interested individuals may pay the registration fee through online banking with the following bank details:
